REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide a method for the methane fermentation treatment of an organic wastewater containing a sulfur compound comprising the steps of: adding an oxidizing agent to the organic wastewater to oxidize the sulfur compound contained therein to sulfur; subjecting the organic wastewater after said oxidizing step to an anaerobic treatment for the methane fermentation thereof; and controlling the feeding rate of the oxidizing agent to be added to the wastewater using as an indicator the concentration of the residual oxidizing agent in the water flowing into said anaerobic treatment step and/or the concentration of hydrogen sulfide in a biogas generated (see, for example, JP 2002-292377), in the examiner's opinion, the prior art fails to teach or render obvious a) wherein when the concentration of hydrogen sulfide in the biogas generated in the anaerobic treatment step is used as the indicator, the oxidizing agent is added such that the concentration of hydrogen sulfide is 3 % or less, b) wherein when the concentration of the residual oxidizing agent in the water flowing into the anaerobic treatment step is used as the indicator, the oxidizing agent is added on the basis of at least one indicated value selected from the group consisting of residual ozone concentration, residual hydrogen peroxide concentration, residual chlorine concentration, residual bromine concentration in the wastewater and oxidation-reduction potential of the waste water or c) wherein when the concentration of the residual oxidizing agent in the water flowing into the anaerobic treatment step is used as the indicator, the oxidizing agent is added on the basis of at least one indicated value

selected from the group consisting of residual ozone concentration, residual hydrogen peroxide concentration, residual chlorine concentration, residual bromine concentration in the wastewater and oxidation-reduction potential of the waste water. The instant invention provides the benefit of a higher COD removal rate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fred Prince whose telephone number is (571) 272-1165. The examiner can normally be reached on Monday-Thursday, 6:30-4:00; alt. Fridays 6:30-3:00.
